Myntra| Ex-Goldman Sachs | Ex-Flipkart

Bengaluru, Karnataka, India

## Summary

Experienced Software Engineer with seven years of hands on experience in developing products and applications. Proven experience in building distributed frameworks and Distributed system architectures.

---

## Experience

### Salesforce

Senior Software Engineering Manager

July 2024 - Present (2 years 2 months)

### Myntra

3 years 4 months

#### Associate Director

April 2024 - June 2024 (3 months)

Bangalore Urban, Karnataka, India

#### Senior Engineering Manager

March 2021 - March 2024 (3 years 1 month)

Bengaluru, Karnataka, India

### Goldman Sachs

Vice President

February 2020 - February 2021 (1 year 1 month)

Bengaluru, Karnataka

### Flipkart

Software Developer

October 2017 - February 2020 (2 years 5 months)

Bangalore

❖ Design and development of Flipkart Catalogue Management System features(Retro and Auto QC):

- o Retro QC: This project targets to QC the whole of Flipkart's Catalogue retrospectively based on any changes in internal business guidelines or to address any government regulations for the marketplace.
- o Auto QC: It involved redesigning the Flipkart's Catalogue system's pipeline for product listings on Flipkart. The motivation for this project is to reduce the product listing TAT (Turnaround time) for Flipkart's catalog systems by delaying the actual QC based on the decision taken by ML-based Intelligence system and by developing several models to automate Manual QCs.

❖ Federated Architecture Implementation for Flipkart Cloud Platform - Storage as a Service (SaaS):

- o Flipkart private cloud is an Enterprise-class S3 cloud store on-premise which provides object storage, with Archival, Backup, Disaster Recovery. The is a highly available, Exabyte scale, fault-tolerant service, and uses Ceph as cluster storage software.
- o Was part of the design and deployment of Hybrid deployment architecture with SSDs and HDDs, Tiered storage which is highly scalable and fault-tolerant.
- o Lead the design, implementation, and deployment of this project. As part of this project, we added the capability Flipkart object storage cluster to host multiple clusters under the same Endpoint.
- o The federated architecture gives it the capability to dynamically route traffic of different user account to different clusters based on the cluster's load and its health state.
- o As part of this project, we also added migration service to migrate data from one cluster to another in real-time to handle disaster recovery and rebalancing of data across clusters.
- o Also added health and performance monitoring framework to the cluster along with alerts and dashboards.

## Infinera

### Senior Software Engineer

August 2013 - October 2017 (4 years 3 months)

Bengaluru Area, India

Worked on Distributed transactional framework provides following services:

- Applying changes and updates to distributed network elements ensuring atomicity of transaction.
- Backup/Restore of network state in case of aborted transaction.
- Ensuring recovery in case of system failure.
- Reporting of Faults and Performance Monitoring data of various network elements.

## Cisco Systems

### Software Engineer

February 2012 - August 2013 (1 year 7 months)

Bangalore

- Wrote code for IPC framework for inter-process communication for Evolution, which is the middleware framework being used for video streaming.
- I was involved in writing different process APIs to enable communication between different components.
- Worked as developer for code customisation of phoneme and Qt338.
- Studied the documentation of Qt and PhoneMe.
- Worked on the integration of Qt and PhoneMe.

## Subex Ltd

### Software Engineer

July 2010 - February 2012 (1 year 8 months)

Bangalore

- Involved in writing c++ code for the Server of real time fraud detection application for telecom services.
- Worked as developer for statistical rule module.
- involved in application development used for monitoring VOICE, GPRS, SMS, MMS and other telecom service.
- involved in writing PL/SQL packages and several DB queries for this module.

---

## Education

### Cochin University of Science and Technology

Bachelor of Technology (B.Tech.), Computer Science · (2006 - 2010)

### Military School Belgaum

XII, Science · (1998 - 2005)
